

# Revision history for effit repository

*Nathan (Nat) Goodman*

*January 1, 2019*

## Release 0.50 2019-02-03

- Rename repo from ‘effit’ to ‘misig’. Better reflects the content I expect for this repo
- Rename first blog post from ‘siglo’ to ‘ovrfx’ - stands for ‘overestimate with fixed effect size’
- Support first real version of blog post ready for external review

## Release 0.10 2019-01-01

First version. Contains boilerplate files such as this one and the document `sigbi.Rmd` (presently just a stub). Will contain code to support the document when released.
